This certificate is issued in accordance with Regulation (EU) No 910/2014 (eIDAS) and the Law on Electronic Documents and Electronic Trust Services.
The qualified electronic timestamp gives rise to a presumption of accuracy of the date and time, as well as the integrity of the data (the work) to which it is linked. The certificate is a document with an authentic date and may be presented as evidence before judicial and administrative authorities in the Republic of Bulgaria, as well as in other EU Member States.
The certificate serves to prove a declaration of authorship as of a specific date, certifying that the indicated work existed in the submitted form at the specified time.
The digital original of the work/data certified by the certificate is subject to verification by validating the match between the cryptographic hash and the timestamp.
Please keep the work unchanged, as any modification may result in a mismatch during verification.
